We were in error yesterday, in stating that Mr. Lyon would accompany the first shipment of bul-lion to New York. We do not make these statements for the purpose of assisting the creation of an exciti ment, but simply to give lens readers in every section the full benefit of the little intelligence we may find in our travel about town, and t rough the mines. Every eye has been turned with the most intense anxiety towards the process introduced by Mr. Lyon, until anticipation of his success has become reality. No min doubts the smelting process now. Every one who has closely examined the principle of smelting is convinced of its power to take the precious me als from our ores. We feet that this is a'l that is wanted to make our mines valuable in New, York and elsewhere among capitalists. Were we in Mr. Lyon's place, the first shipment of bullion, from the new process should be carried in triumph among the Bulls and Bears by ourself, in vindicetion of that process. We know the gold is here, but all attempts to extract a liberal per cent of it have signally failed, and in conse quence eastern men having capital to invest are skeptical, and it needs something of this kind to open their eyes to the truth. - Central,

Wattonal Thanksgiving. The most gratifying proclamationi lately issued, is that of the President of the United States, recommending a general National Thanksgiving on Thursday, the seventh of December next. It is the formal notice of the end of the Rebellion, and the commencement of Peace. With a marked sense of the fitness, of things, a day has been chasen in the month of Decombet when the christian world is preparing to celebrate the birth of the Saviour of Mankind. As we read the proclamation, we remember the words of Scripture:

And suddenly there was with the angel a multitude of the Heavenly liost, praising God, and saying by Glory to God in the High-cat, and on earth, peace and good will to men"

And to this call for praise and pond, AMEN.

Though however, it is a light and a bright one, it is truly "a light shining in the darkness, and the darkness samprehandethrit not."

In my intercourse with the people of G. S. L. Ciry, Tillid many who rend your paper that do not contribute to it-they borrow it of others, and would subscribe for it themselves, but they dore not. I have seen this tried even recently, and before the brave California troops came here, tried with effect. The practice. like many other corrupt practices of Utan, is on the wane; but much vet remains to be done, ere "the city of the Plains" is free from the bullying attacks of the annoying, insulting and vulgar, low-lifed cowards who perpetrate them.
